DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/30/2005 has been entered.

Specification

The disclosure is objected to because of the following informalities:

Delete "This is a continuation of Application Number 10/810865, filed 29 March 2004", because the instant application is not a continuation.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 8 and 9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 8 recites, "a continuous circumferential

encompassing seal...installing said cable in said conduits...the interior of said conduits are rendered suitable for cable installation, and said cable is installed"; however, the original disclosure fails to support aforementioned features. Claim 9 recites, "a continuous circumferential encompassing seal"; however, the original disclosure fails to support aforementioned feature.

Allowable Subject Matter

Claims 1 and 5-7 are allowed.
